

Skeeter's Auto Service

Engines for Life Program

-Gasoline Vehicles Only-

All of our customers vehicles will be treated with BG MOA engine conditioner. (Eligible vehicles are those with less than 75,000 miles on the odometer at the time of service.) The Engines for Life Program covers the following components:

All internally lubricated parts, including pistons, piston rings and pins, crankshaft and main bearings, connecting rods and rod bearings, camshaft and bearings, oil pump, timing chain/gears, rocker arms, valves, valve spring seats and guides, valve push rods, and lifters. The engine block, cylinder head, and rotary housing are covered only if damaged by an internally lubricated part.

In order to keep the Engines for Life Program in force, you must return to our service department for an oil and filter change using BG MOA #110 at least every 5,000 miles, along with the manufacturers specified grade of oil.

I understand the terms of the Engines for Life Program.

X _____ (print name) X _____ (signature)

Added Bonus: The Engines for Life Program is transferable when you sell your car!

*Engine Coverage is up to \$2,000 if the program is started on vehicles with under 75,000 miles.
Coverage doubles (up to \$4,000) if program is started on vehicles with under 36,000 miles.*
